Risk assessment
Where a concern about a pupil's welfare is identified, the risks to that pupil's welfare will be assessed and appropriate action will be taken to reduce the risks identified. This will be recorded and then regularly monitored and reviewed.

The format of risk assessment as to pupil welfare may vary and may be included as part of the School's overall response to a welfare issue or using the attached risk assessment form. Regardless of the form used, the School's approach will be systematic with a view to promoting pupil welfare and will run through the stages identified in Appendix 1.

The information obtained through this process and the action agreed will then be shared, as appropriate, with other staff, parents and third parties in order to safeguard and promote the welfare of a particular pupil or of pupils generally.

Risk assessments are stored on the SMT drive. Assessments relating to individual pupils will be held on their pupil records.

Safeguarding/Child Protection
With regards to safeguarding risks, and in accordance with current statutory guidance, including Keeping Children Safe in Education Part One Annex A (September 2019), Working Together to Safeguard Children and Part 3 of the ISSRs, the School has systems in place to identify pupils who may be in need of extra help, or those who are suffering, or are likely to suffer significant harm, and will take appropriate action to address and mitigate those risks by working in conjunction with social care, the Police, health services and other services, where necessary.

Full details of Langley Preparatory School at Taverham Hall's safeguarding procedures are set out in the Safeguarding policy.

Anti-Bullying
The School has a written Anti-bullying Policy which covers the School's approach to the management of bullying and cyberbullying.

Behaviour
The School has a written a Behaviour, Rewards and School Discipline Policy which sets out how it promotes good behaviour amongst pupils and the sanctions to be adopted in the event of pupil misbehaviour.

This policy contains further information about the School's performance of its duties under the Equality Act 2010 (and reasonable adjustments made for pupils with educational needs/disabilities), support systems for pupils and liaison between parents and other agencies.

Health and safety
In accordance with its obligations under the Health and Safety at Work etc Act 1974 and with Part 3 of the ISSRs, the School has a duty to ensure the health, safety and welfare of employees and the health and safety of pupils and others affected by the School's operations, so far as is reasonably practicable. The School will do so by taking a sensible, proportionate and holistic approach to the management of health and safety issues in accordance with the School's obligations and its health and safety policies.
Appendix 1  Guidance on risk assessment

A risk assessment in the pupil welfare context is a careful examination of what could cause harm to pupil welfare and appropriate control measures, so that you can weigh up whether Langley Preparatory School at Taverham Hall has taken adequate precautions or should do more to prevent harm.

The purpose of a risk assessment is not to create huge amounts of paperwork, but rather to identify sensible measures to control real risks - those that are most likely to occur and/or will cause the most harm if they do.

When thinking about your risk assessment in this context, remember:

• a welfare issue is anything that may harm a pupil, to include cyber-bullying or abuse;
• the risk is the chance that a pupil could be harmed, together with an indication of how serious the harm could be if they are.

Step 1: Identify the issue
First you need to work out how pupils could be harmed. This will generally be set out in the concern raised about a pupil's welfare.

Step 2: Decide who might be harmed and how
Identify individual pupils or groups who might be harmed and how they might be harmed by the concern raised.

Step 3: Evaluate the risks and decide on precautions
Decide what to do about the risks. The extent of the risk will depend on the likelihood of the harm occurring and the severity of the harm.

The effectiveness of controls should be considered and the extent of risk remaining assessed. When deciding if precautions are acceptable, the assessor should take into account the legal requirement to do all that is “reasonably practicable” to protect people from harm. Compare what you currently do with what is required by law, DfE guidance or is accepted good practice. If there is a difference, list what needs to be done to protect the pupil's welfare.

If the remaining risk is unacceptable then further controls must be identified to further reduce the risk. Where further action is necessary then an action plan should be included in the risk assessment, this should include:

• name of employee responsible for completing the action
• target date for completion
• any interim measures to reduce risk in the short term
• confirmation that the action has been completed
• reassessment of the level of risk following completion of the action.

Step 4: Record your findings and implement them
Make a written record of your significant findings - the issue, how pupil(s) might be harmed and what arrangements the School has in place to control those risks.

There is no prescribed format for this record but any record produced should be simple and focussed on control measures and the steps the School proposes to take to manage the risk.

Step 5: Review your risk assessment and update if necessary
Review what you are doing for the pupils identified and across the school generally and monitor the efficacy of the measures you have put in place on a regular basis, or as required.
